

DISTANT ALASKAN TSUNAMI WARNING -

OCLUCJE

What is it?

A TSUNAMI WARNING is the highest level of tsunami alert.

You are in DANGER!!

What should I do?

Follow instructions, then evacuate away from Zeballos to the east side of Vancouver Island.

What if I can't leave the area?

Go to either Ehatis or Zeballos Tsunami Muster Sites. Transportation will come pick you up.

LEAVE YOUR BOAT in the water and get to high ground. You don't have time to save it and risk your life trying.

Check on your neighbours.

Grab emergency evacuation kit.

Drive past Zeballos to east Vancouver Island. Carpool if necessary.

Create a profile at <https://ess.gov.bc.ca/>. Then call **250-203-1972** to be connected with trained Emergency Support Services volunteers.

You have 3 hours and 20 minutes until 3.4 m - high tsunami waves arrive!
