<sup>3</sup> Shows the certified population of the total area, inclusive of people residing on Indian Reserves that are part of the area, as at November 1, 2017. These figures are used to determine the number of Directors at the Regional District Board and their voting strength (the number of votes a municipality or electoral area is entitled to) in accordance with Section 196 of the *Local Government Act*.

<sup>4</sup> A municipality or electoral area has an assigned number of Directors. In the case of an electoral area, there is only one Director regardless of population size. The number of Directors for a municipality is determined by dividing the number of votes by the number of five (5) with the result raised to the next whole number.

<sup>5</sup> A municipality or electoral area is entitled to a predetermined number of votes (e.g. for financial decisions). This is known as *voting strength*. Voting strength is determined by dividing the population of the political unit (municipality or electoral area) by the voting unit with the result raised to the next whole number. The voting unit for each regional district is set out in Letters Patent. For ease of reference, the respective voting unit is provided on each regional district page in this publication.
