Dear Ms. Watson

Enclosed are the pages of the signed petition with one hundred and six signatures, regarding the request for dog control on Cortes Island.

I acknowledge the wording is clumsy but I organized this immediately after Phoebe's death so that the event was still fresh in the public mind. The people that signed the petition were all in favour of the two main points - leash requirement for dogs and a dangerous dog by-law.

These signatures were gathered in a short period of time and had I the resources and energy I have no doubt there would have been many more.

Thank you.

Yours truly,

Gerri Davis

We, the undersigned, being residents of Cortes Island, hereby petition the Directors of the Strathcona Regional District to put into effect a **dog control by-law for Electoral Area B** so that in the event dogs are repeatedly wandering at large off-leash and charging, jumping up on or harassing citizens in public places and being nuisance dogs or in the event a dog is deemed to be dangerous as a result of biting or killing another animal or injuring a person, the Quadra or other police agency can keep a file on nuisance dogs and provide a place to register complaints and will have legal recourse to attend on Cortes and seize a dangerous dog.

And in addition, that citizens of Electoral Area B or visitors to Electoral Area B can walk, hike, cycle, safely on roads, parks, paths, beaches, hiking trails anywhere on Cortes Island without fear of being approached in any aggressive or domineering manner by a dog at large. Even if a dog is not a dangerous dog, we, the undersigned, ask that there be a Control of Dogs by-law to require people to keep their larger dog(s) on a leash while not on the owner's property so that citizens of Cortes have redress from being harassed by dogs. Having a small dog on a leash may also save its life from charging and ~~running~~ jumping larger dogs.
