

Addendum #2

REQUEST FOR PROPOSALS

RFP 14-21 Public Transportation Services Feasibility Study

Issued January 18, 2022

The Strathcona Regional District wishes to issue the following addendum to its "Request for Proposals – RFP 14-21 Public Transportation Services Feasibility Study" in response to proponent questions:

Question No. 1: Item 31b on page 9 of the RFP document states the following insurance requirement: "Automobile liability on all vehicles owned, operated or licensed in the name of the contractor in an amount not less than \$2,000,000." Our firm does not own, operate or license any vehicles. We have automobile insurance coverage of \$1M for non-owned vehicles. Please confirm that this will be sufficient.

Response: The intent of the requirement is to ensure that vehicles used to fulfill the requirements of any contract carry sufficient insurance to protect the Regional District from risk and liability. If the successful proponent will be fulfilling the work requirements using vehicles owned by third parties it is expected that such vehicles will be insured at the minimum levels outlined in the RFP documents.

Question No. 2: Since our firm is not planning to have an in-person presence in British Columbia to fulfill the work requirements, can you confirm that compliance with worker's compensation requirements applicable to a proponent's physical location is acceptable in lieu of compliance with British Columbia worker compensation requirements.

Response: The Regional District would accept written confirmation from Worksafe BC regarding the acceptability of out-of-Province entities using their local jurisdictional worker's compensation coverage to perform the work of the contract.

If you have any questions concerning this Addendum or RFP, please email procurement@srd.ca. Please sign below, acknowledging receipt of this Addendum and return this document with your submission to the RFP. If submitting multiple responses, please include a copy with each submission.
